

Christ, Sharon

Sharon Christ is a Research Statistician at the Odum Institute for Research in Social Science at the University of North Carolina and a PhD student in the Department of Sociology at UNC. She has an MA in Sociology and an MS in Statistics. Sharon specializes in structural equation modeling (SEM) and the analysis of complex samples that include weighting, clustering, and stratification. In her position at the Odum Institute, Sharon works as a consultant providing methodological guidance to researchers analyzing the National Survey of Child and Adolescent Well Being (NSCAW).
