

**Rubin, Don**

Donald B. Rubin is John L. Loeb Professor of Statistics, Department of Statistics, Harvard University, where he has served as Chairman for 13 years. He has over 300 publications (including several books) on a variety of topics, including computational methods, causal inference in experiments and observational studies, survey methods, techniques for handling missing data, Bayesian methods, multiple imputation, matched sampling, and applications in many areas of social and biomedical science. Professor Rubin is a Fellow of the American Statistical Association, the Institute for mathematical Statistics, the International Statistical Institute, the Woodrow Wilson Society, the John Simon Guggenheim Society, the New York Academy of Sciences, the American Association for the Advancement of Sciences and the American Academy of Arts and Sciences. He is also the recipient of two of the most prestigious awards available to statisticians: The Samuel S. Wilks Medal of the American Statistical Association and the Parzen Prize for Statistical Innovation and is the 2004 R. A. Fisher Lecturer.
