

Schenker, Nathaniel

Nathaniel Schenker is senior scientist for research and methodology at the National Center for Health Statistics, U.S.A., and adjunct professor of Survey Methodology at the University of Maryland. His research interests include handling incomplete data, census and survey methods, survival analysis, statistical computation, and applications of statistics to the health and social sciences. He has served as a member of the Board of Directors of the American Statistical Association, Program Chair of the Joint Statistical Meetings, an Associate Editor of the *Journal of the American Statistical Association*, the *Journal of Official Statistics*, and *Survey Methodology*, and Editor of a special section of the *Journal of the American Statistical Association* entitled "Undercount in the 1990 Census." Dr. Schenker is a Fellow of the American Statistical Association, an elected member of the International Statistical Institute and the Delta Omega honorary public health society, and a recipient of the Roger Herriot Award for Innovation in Federal Statistics.
